

CREATING A NEW ONEPASS

A OnePass account is a username and password, created by you, that can be linked to multiple Thomson Reuters websites and applications such as Westlaw India, Westlaw Next and Proview. Your OnePass is used to access any of these online platforms, so you need to link it to the products you would like to use.

[Click here](https://onepass.westlaw.com/v2/new?productid=wlin) or go to <https://onepass.westlaw.com/v2/new?productid=wlin>

1. Enter your existing Westlaw India Username-Password, a Friendly Name (to differentiate Westlaw India from other platforms linked to your profile) and your email address, and then click continue.
2. Enter your information in the fields you see on screen. *There are some security requirements for choosing a username and password – you can see these when you click into the respective fields.*
- ➔ Choose a security question that can be used to recover your details if you ever forget them.
3. Click Create Profile – You have successfully created a OnePass profile for accessing Westlaw India. From now on you can log on using the OnePass details you have chosen.
- ➔ Click on Return to Westlaw India to log on with your OnePass Username & Password.

If you have other Thomson Reuters services such as Westlaw Next, Westlaw UK, Proview or Checkpoint World continue to the next page to see how to link them to your OnePass profile.
